Habits of Mind:
Plan of Action for Implementation Strategies

What is your goal for Habits of Mind—to ask faculty to choose a few tools that fit their pedagogy, to recommend tools to faculty in your area, to collaboratively choose the best tools to use in your area, etc.?

What do you plan to do to achieve your goal? Write down at least three tasks, activities, etc.

How do you plan to encourage and allow for faculty implementation of Habits of Mind while still respecting academic freedom? What objections/obstacles do you foresee? How do you plan to overcome them? What are your reservations about Habits of Mind, and how can we help resolve them?

How will you share ideas about improving the implementation of Habits of Mind at an institutional level?

Schedule days, times, and minutes to achieve each step in your plan.

Adopting Habits of Mind tools & language enables us to emphasize & strengthen existing approaches.

While we cannot make our students successful, we can help them use tools that will develop the habits they need to overcome the challenges they face.
