Welcome to California Community Colleges Chancellor’s Office MIS Data Mart
The data mart provides information about students, courses, student services, outcomes and faculty and staff. The emphasis of a data mart is to answer the questions of administrators, educators, parents, students, state leaders, and professional organizations. Because the data mart is aimed at supplying information to a wide variety of users, the easy-to-use interface and query explanations insure the data are easily accessed and processed. Begin by selecting one of the topic areas.
