Nov 26 2013

Present at the Data Coaches meeting:

Pat Davis
Zav Dadabhoy
Reggie Bolton
Vickie Coffee
Robert Torres
Joyce Kirst
John Gerhold
Sue Vaughn
Kim Van Horne
Heidi Forsythe
David Neville
Kenward Vaughn
Richard Darke
Liz Rozell
Janet Fulks
Sonya Christian

Began meeting with an announcement from Sue Vaughn on Degree Works
Janet described some upcoming projects that we need data coach involvement in got names of volunteers for the projects.
Project #1 is the CCSSE survey
- Janet briefly described the role of CCSSE data as part of the institutional scorecard
- The importance of the baseline 2011 data
- The Spring CCSSE planning – need to alert faculty concerning leaving room in their schedule and need volunteers to administer the survey
- About 80 classes will be randomly picked and they will need to administer the survey within a 6 week flexible period
- CCSSE picks these random classes to get AM, afternoon and PM classes as well as General Education and specific discipline data
- We will also be “oversampling” which means non-random data collection in specific areas like STEM
- We will be adding customized questions to assess STEM, MESA, Habits of the Mind and Institutional Learning Outcomes (ILOs)
- Volunteers to work on this CCSSE project will examine the baseline data, get a one hour training on administering the survey (in January) and help with administration of survey in the Spring

Project #2 — First Generation Film Showing
This project integrates our understanding from the data summit that over 80% of our first generation students are First Generation. Two of the 4 students in the film are from Kern county and one is still at BC. The film is internationally renown and has won many awards. We hope to link the important student information to our Habits of the Mind and other student affairs work on campus.
We have rescheduled the film debut to February (most likely Feb 17-21) with 3 showings or possibly more. We are considering a Delano showing. Students, faculty, classified, community, High School teachers and counselors, KCCD and the Board of Trustees will be invited. The wee-long event will end with a Student Success Stewardship meeting Feb 21st at 10:30 with a panel of students, faculty and staff and a discussion about how to embed the understanding we have gained from the film into our institutional practices.

The committee structure for this even includes:
Planning Vickie Coffee, Terri Goldstein, Tina Tuttle, Janet Fulks, Kristin Rabe, Tarina Blair, Amber Chiang
Outreach: Alice Desilagua (HS counselors), JoAnn Acosta (student clubs), Primavera Arvizu (financial aid students)
Data Coach Involvement: Reggie Bolton, Kim Van Horne, Heidi Forsythe

Sonya then shared about the institutional scorecard.
