Welcome to the New A17

While roaming the halls of the administration building, you may have noticed some changes to the room between Admissions and Records and the new Human Resources office. The new tenants of A17 have arrived with a shared goal of helping BC students succeed.

Who are we? A17 houses the Department of Student Success and Precollegiate Studies and the Office of Equity and Inclusion. We may sound a little different from one another, but we have many similarities.

We have a shared desire for students to feel welcomed and comfortable in our space, to provide excellent support to help each student be successful in their individual goals, and to be innovative and forward thinking in making Bakersfield College an even more amazing place to study, work, and play.

We also happen to be a pretty fun group!

Look for updates in the fall as we continue to grow and work throughout the summer.

Programs and Populations You May Recognize

We are a busy bunch. Check out some of the programs and student populations in which we are involved.
